The methodology detailing how visualisations have been prepared is included as Technical Appendix 8.1 in Volume 4 of the EIA Report.

Visualisations are best viewed at the viewpoint location. For printed images, view at the specified paper size, flat at a comfortable arm's length, as per viewing instructions on each figure. It is preferable to view printed images, but if viewing images on a screen, enlarge to the full screen height on a full size computer screen, rather than on a tablet, phone or other small screen. Further viewing instructions for visualisations are contained in Technical Appendix 8.1 in Volume 4 of the EIA Report.

The Visualisation Document downloadable from the Council's ePlanning portal is low resolution for screen viewing only. High resolution PDF files suitable for printing at 300ppi can be downloaded from the following website:
