

- Key:**
- Dam and Upper Reservoir
 - Spillway Channel
 - Intake Tower
 - Tunnels: Headrace / Tailrace / Access / Emergency Access
 - Cavern Power Station (underground)
 - Surge / Ventilation Shafts
 - Emergency Access Tunnel Portal
 - Lower Control Works / Jetty and Administration Building
 - Existing Road / Track to be Upgraded
 - New Access Track: Permanent / Temporary
 - Indicative Borrow Pit Area
 - Indicative Site Establishment Area
 - Landscape and Visual Study Area

- Visual Receptors**
- Built Receptor / Receptor Group
 - Road and Transport Receptor
 - Footpath / Walking Route Receptor
 - Great Glen Way
 - Outdoor Receptor

Visual Assessment

A	A = Receptor Reference
B	B = Effect During Construction
C	C = Effect During Operation

Receptor Reference:
 R = Routes
 F = Footpaths
 B = Buildings
 O = Other outdoor locations

- Major Effect
- Moderate Effect
- Minor Effect
- Neutral Effect
- No View
